Albany, N. Y., Dec. 26 .- Mrs. Alfred Wiltse of 815 Central avenue, this city, is the mother of a three-days-old daughter which she insists was born in 116 days, or less than four months after she had given birth to a son. Her story is practically vouched for by Dr. George T. Mosler a reputable physician who attended her. Both parents are a few months over 20 years of age. Dr. Mosler said to the Associated Press tonight that

he believed the woman's story.
"The child is normal." he said. "and I saw the other child, who apparently is not more than four months old. Mrs. Wiltse told me that no physician attended the other birth and her only attendant was a woman with whom she boarded, but whose present address she does not know. Mrs. Wiltse's mother and family vouch for the truth of her story and share in the surprise occasioned by the phenomena.

sembly will be convoked. Extension of Suffrage.

The extension of the suffrage pr The extension of the suffrage pro-claimed today applies especially to the cities where it is made almost universal. Besides, the workmen in the factories and mills who are especially provided for, the suffrage will include every owner of real estate paying taxes, persons con-ducting enterprises, like shop-keepers paying license, persons paying a lodging tax or occupying separate lodgings and persons in the government service, in-cluding railroad men. All limit of rent paid by lodging holders as a voting qualification is removed. The indict sys-tem of two degrees of voters in both the cities and country is retained.

New Feature of the Law.

A new feature of the law is that the workmen instead of being allowed a specified number of class representatives have to take their chances in the electoral colleges with the other classes. Moreover, instead of the cities having separate representatives the electoral colleges will be composed by the provinces. The workmen will choose an elector for every 10,000 men. The resuit is shown in the case of the province of St. Petersburg, where the electoral college will contain fourteen peasant electors, eignteen landlords, fifteen city landlords and twenty-four workmen. By this method, while the workmen's electors are the largest class, they will only be able to elect representatives in combination.

Manifest Improvement.

Manifest Improvement.

The new law is a great extension of the law of August. It contains elements which certainly will appeal to conservative opinion, but with the slogan of "universal suffrage" ringing in the popular ear it will prove a great disappointment and is certain to furnish the proletariat organization with a new weapon for agitation. They no longer want concessions. They are boldly proclaiming that nothing but the complete overthrow of the autocracy and, the establishment of a Democratio republic will satisfy them.
